## County of San Luis Obispo

TO: Board of Supervisors

FROM: Public Works

Jeff Werst, Design Division Manager

VIA: Don Spagnolo, Project Manager

DATE: 2/24/2015

SUBJECT: Letter transmitting plans and specifications (Clerk's File) for 2014-2015 Asphalt Overlay of various roads, Los Osos, for Board approval and advertisement for construction bids and find that the project is exempt from Section 21000 et seq. of the California Public Resources Code (CEQA). Bid opening date set for Thursday, March 26, 2015. District 2.

### **RECOMMENDATION**

In accordance with applicable State Law, it is recommended that the Board:

1. Approve the project and adopt the plans and specifications for the construction of 2014-2015 Asphalt Overlay, Various Roads, Los Osos, Contract No. 300519;
2. Authorize the contract to be advertised for construction bids. The recommended bid opening date is Thursday, March 26, 2015;
3. Provide the Public Works Director, or his designee, the discretion to extend the bid opening date to a date deemed more appropriate by the Director or his designee, so long as any such extension is in compliance with all applicable laws; and
4. Find that the project is exempt from Section 21000 et seq. of the California Public Resources Code (CEQA).

### **DISCUSSION**

With the completion of the wastewater collection system in Los Osos, attention can be turned toward road rehabilitation work on major arterials and collector roads in the community. Work on these principal roads had been deferred and results in significant repaving and street upgrades.

This contract provides for a pavement overlay on:

- Los Osos Valley Road from South Bay Boulevard to Pine Avenue;
- Los Osos Valley Road from Doris Avenue to Rodman Drive;
- Los Olivos Avenue, entire length;
- Pine Street from Los Osos Valley Road to Skyline Drive; and
- Streets in the Bay Oaks tract.

The project will place new hot mix asphalt, with no expansion of the currently paved area, for a total length of approximately 5.03 miles. These roads were confirmed for overlay through the County's Pavement Management System and on-site inspection.

With the resurfacing of Los Osos Valley Road, the street is to be restriped for Class II bike lanes through the central business district as part of the County's Bikeway Plan. The contract also includes connecting the existing landscape median, between Fairchild Avenue and South Bay Boulevard, to the new reclaimed water system which was constructed as part of the wastewater project along Los Osos Valley Road. This will support long range street corridor development.

Pedestrian crosswalk and accessibility improvements, to conform to the current Americans with Disability Act (ADA) requirements, are to be constructed over the length of Los Osos Valley Road and Los Olivos Avenue.

#### **OTHER AGENCY INVOLVEMENT/IMPACT**

Area utility companies, including Los Osos Community Services District and Golden State Water Company, have been alerted of our construction schedule and advised to proceed with any subsurface work prior to our paving project. Various utility valve lids and vaults will be adjusted to the constructed street grades. These are obligations of the utilities. Golden State Water Company is pursuing to have the County conduct the work as part of our project under a County reimbursement agreement.

The Los Osos Community advisory Council has reviewed the project and concurred with the striping of bike lanes on Los Osos Valley Road from Fairchild Avenue to Bush Drive.

County Counsel has approved the contract as to legal form and effect. The County Clerk formally processes the bid openings.

The County Environmental Coordinator has reviewed the project and determined that it is exempt from CEQA.

#### **FINANCIAL CONSIDERATIONS**

This is a multi-year project budgeted in the Road Fund at \$4,044,988 – WBS 300519. The total project costs are estimated at \$2,775,358. Funding for the project will come from the Road Fund Pavement Management Program.

At the time of award, when actual construction costs are known, any unused budget will be redirected to other planned Pavement Management projects. No budget adjustment is necessary.

Please see Exhibit "A" for an estimated cost breakdown of the project.

## **RESULTS**

Approval of the recommended action will result in this project being advertised for construction bids. The Asphalt Overlay construction will lead to an improved pavement condition and provide a safer and more livable community.
